500,000 PEOPLE
Throughout the United States & Canadas,
HAVE USED
DR. J. MILLER'S
SOOTHING & HEALING
BALSAM,
And cheerfully recommend it to the public as being the Best Family Medicine in the world for all internal and external complaints for which it is recommended. It is fast gaining popular favor, and has already reached extensive sales. All we ask, in order to convince the most sceptical of the powerful efficacy of this GREAT REMEDY, is the trial of one bottle, costing only 50 cents, and you will never be without it or hesitate to recommend it to your friends. Sold by druggists everywhere. Every bottle used according to directions is warranted to cure, or money refunded.

The proprietors CHALLENGE THE WORLD to produce its superior as a remedy. Testimonials received daily in reference to the astonishing cures it has performed. It is used and recommended by prominent physicians throughout the country.

It has proven infallible for Burns, Scalds, Frozen Limbs, Bruises, Sprains, Wounds of all kinds, Pains in the side, back or shoulders, Piles, Corns, Chilblains, Chapped Hands, Stiff Neck, Ague in the face or breast, Ear Ache, Deafness, Loss of Motion of Limbs, Poisoning, Erysipelas, Inflammation of the Eyes, Inflamed Irritation of the Skin. For Rheumatism it is not a certain cure, yet hundreds have been relieved by it when other remedies had failed.

AS AN INTERNAL MEDICINE, when taken in season, it will cure Croup, Hoarseness, Sore Throat, Dry Cough, Asthma, Whooping Cough, Canker in the Mouth, Sore Lips, Inflammation of the Bowels, Dysentery, Kidney Complaints and Cholera Morbus.

THE "BALSAM" has also given great relief in many cases of Diphtheria.

No person need fear to use this medicine, as it is purely vegetable in its composition. It is soothing and healing in its influence, and may be given to any age or sex with perfect safety.

LAWS OF RHODE ISLAND.

Passed, January Session, A. D. 1871.
CHAPTER 912.

AN ACT for the more effectual prevention of cruelty to animals.

It is enacted by the General Assembly as follows:

SEC. 1. Whoever overdrives, overloads, drives when overloaded, overworks, tortures, torments, deprives of necessary sustenance, cruelly beats, mutilates, or cruelly kills, or causes, or procures, to be so overdriven, overloaded, driven when overloaded, overworked, tortured, tormented, deprived of necessary sustenance, cruelly beaten, mutilated, or cruelly killed any animal; and whoever having the charge or custody of any animal, either as owner or otherwise, inflicts unnecessary cruelty upon the same, or unnecessarily fails to provide the same with proper food, drink, shelter or protection from the weather, shall, for every such offence, be punished by imprisonment in jail, or State work house, or house of correction, not exceeding one year, or by fine not exceeding two hundred and fifty dollars, or by both such fine and imprisonment.

SEC. 2. Every owner, possessor, or person having the charge of custody of any animal who cruelly drives or works the same when unfit for labor, or cruelly abandons the same or who carries the same, or causes the same to be carried, in, or upon, any vehicle, or otherwise, in an unnecessary cruel or inhuman manner, or knowingly and willfully authorizes or permits the same to be subjected to unnecessary torture, suffering or cruelty, of any kind, shall be punished for every such offence in manner provided in section one.

SEC. 3. No railroad company in the carrying or transportation of animals, shall permit the same to be confined in cars, after the same shall have been so confined for a period of twenty eight consecutive hours, without unloading the same for rest, water and feeding, for a period of at least five consecutive hours, unless prevented from so unloading by storm or other accidental causes. In estimating such confinement, the time during which the animals have been confined without such rest on connecting roads from which they are received, shall be included; it being the intent of this act to prohibit their continuous confinement beyond the period of twenty eight hours, except upon contingencies herein before stated.—Animals so unloaded shall be properly fed, watered and sheltered during such rest, by the owner or person having the custody thereof, or, in case of his default in so doing, then by the railroad company transporting the same at the expense of said owner or person in custody thereof, and said company shall in such case have a lien upon such animals for food, care and custody furnished, and shall not be liable for any detention of such animals authorized by this act. Any company, owner, or custodian of such animals who shall fail to comply with the provisions of this section, shall, for each and every such offence, be liable for and forfeit and pay a penalty of not less than one nor more than five hundred dollars: Provided, however, That when animals shall be carried in cars in which they can and do have proper food, water, space and opportunity for rest, the foregoing provisions in regard to their being unloaded shall not apply.

SEC. 4. Any person found violating the laws in relation to cruelty to animals, may be arrested and held without warrant, provided that such arrest or detention without a warrant shall not continue longer than six hours; and the person making an arrest with or without a warrant shall use reasonable diligence to give notice thereof to owner of animals found in the charge or custody of the person arrested, and shall properly care and provide for such animals until the owner thereof shall take charge of the same: Provided, The owner shall take charge of the same within sixty days from the date of said notice. And the person making such arrest shall have a lien on said animals for the expense of such care and supervision.

SEC. 5. When complaint is made, on oath or affirmation to any magistrate authorized to issue warrants in criminal cases, that the complainant believes and has reasonable cause to believe that the laws in relation to cruelty to animals have been or are being violated in any particular building or place, such magistrate, if satisfied that there is reasonable cause for such belief, shall issue a search warrant, authorizing any sheriff, deputy sheriff, constable or police officer, to search such building or place; but no such search shall be made after sunset unless specially authorized by the magistrate, upon satisfactory cause shown.

SEC. 6. In this act the word "animal" or "animals" shall be held to include all brute creatures, and the words, "owner," "person" and "whoever," shall be held to include corporations as well as individuals, and the knowledge and acts of agents of and persons employed by corporations in regard to animals transported, owned or employed by or in the custody of such corporations, shall be held to be the acts and knowledge of such corporations.

SEC. 7. It shall be the duty of all sheriffs, deputy sheriffs, constables and police officers, to prosecute all violations of the provisions of this act, which shall come to their notice or knowledge, and fines and forfeitures collected or resulting from the complaint or information of any officer or agent of the society for the prevention of cruelty to animals under this act, shall innure and be paid over to said society in aid of the benevolent objects for which it was incorporated.

SEC. 8. The several trial justices and courts exercising jurisdiction of justices of the peace, shall have concurrent jurisdiction with courts of common pleas, over all offences under this act, and to the full extent of the penalties therein specified; parties defendant, however, having the same right to appeal from the judgement of said justices and courts as is now provided by law in other criminal cases.

SEC. 9. If any maimed, sick, infirm, or disabled animal shall be abandoned to die, by any owner or person having charge of the same, such person shall for every such offence, be punished in the same manner provided in section one.

SEC. 10. Any officer authorized to serve criminal process may enter any place, building or tenement where there is an exhibition of the fighting of birds or animals, or where preparations are being made for such an exhibition, and without a warrant, arrest all persons there present, and take possession of the birds and animals engaged in fighting, and of all birds and animals there found and intended to be used or engaged in fighting; such persons shall be kept in custody in jail or other convenient place not more than twenty four hours, Sundays and legal holidays excepted; at or before the expiration of which time such persons shall be brought before a trial justice or court exercising jurisdiction of justices of the peace, or court of common pleas, and proceeded against according to law.

SEC. 11. After the seizure of any birds or animals, as provided in the preceding section, application shall be made to a trial justice or court exercising jurisdiction of justices of the peace, or court of common pleas, for a decree of forfeiture of the same; and if upon the hearing of such an application, it shall be found and adjudged that the same at the time of said seizure were engaged in fighting at an exhibition thereof or were owned, possessed or kept by any person with the intent that the same shall be so engaged they shall be adjudged forfeit, and any officer authorized to serve criminal process shall

sell the same in such manner as the court or Justice shall order, and pay the proceeds of such sale to the use of the country. Should it be found and adjudged that any such birds or animals are of no use or value, the same shall be set at large or otherwise disposed of as the court of justices may direct. The claimant shall be allowed to appear in the proceeding upon any such application. Any of such birds or animals not adjudged forfeit shall be delivered to the owner therof.

SEC. 13. Any claimant aggrieved by any decree of such court or justice, may, within five days after the entry of such decree, and before execution thereof, appeal therefrom to the court of common pleas or supreme court then next to be held in the country.

SEC. 13. The necessary expenses incurred in the care and disposing of such birds or animals may be allowed and paid in the same manner that costs in criminal prosecutions are paid.

SEC. 14. Whoever owns, possesses, keeps, or trains any bird or animal, with the intent that such bird or animal shall be engaged in an exhibition of fighting, shall be punished by fine not exceeding fifty dollars.

SEC. 15. Whoever is present at any place, building or tenement where preparations are being made for an exhibition of the fighting of birds or animals, with intent to be present at such exhibition, or is present at such exhibition shall be punished by fine not exceeding ten dollars.

NEWPORT DAILY NEWS.

FRIDAY, April 28, 1871.

Coal Troubles.

Matters seem to be in no ways settled in the mining district. The members of the union at Scranton refuse to work or permit anyone else to do so. There are, however, reasons to believe that work will be resumed at no late day, and that too without the aid of the former miners.—Large numbers of German and English workmen are preparing to go into the mines, on the terms offered by the operators. The reason of the delay, we are told, is that they may go in with sufficient force to protect themselves from the Working Men's Protective Union. One proof of a probable early resumption of work with new hands in the mines, is the fact that the companies have refused to hold any further conferences with committees of miners, replying to the last communication that eighty six cents per diamond car was their "ultimatum," and when the miners notified them of its acceptance they could resume work.

Bismarck's Demand.

The report, that Prussia has openly demanded of Switzerland the session of all her German speaking Swiss Cantons, lacks confirmation. Indeed, we have many reasons to doubt if such a demand has ever been made, yet in all probability Bismark looks with a greedy eye on those fruitful Swiss villages and would gladly make them a part of the German domain, if it could be done peaceably. Switzerland is a small republic, whose liberties have been guaranteed by the great powers of Europe and any attempts at dismemberments must be resisted with some show of resistance at the least. Prussia, though successful in her contest with France, is in no condition to bring upon herself another struggle where not only France, what there is left of her, but Italy, Austria, and perhaps Great Britian will be the contestants.

Essex County.

The list of living writers who claim Essex County, Mass. as the place of their nativity is somewhat numerous. The following are mentioned as among the number:

Rev. Dr. Gardiner Spring, ex president Woods of Bowdoin College, Caleb Cushing, Rev. Dr. Nehemiah Adams, Rev. Dr. Stephen H. Tyng, Prof. Benjamin Pierce, Rev. Dr. A. P. Peabody, Caleb Foote, Henry I. Bowditch, Bishop Thomas M. Clark, John O. Sargent, E. H. Derby, George Lunt, Mrs. Louisa J. Hall, John G. Whittier, Charles W. Palfrey, Wm. Lloyd Garrison, George H. Devereux, Dr. George Derby, Mrs. Horace Mann, William W. Story, Rev. Rufus W. Clark, Jones Very, Wm. F. Poole, George J. L. Colby, Epes Sargent, H. G. Somerby, Rev. Charles T. Brooks, Lydia L. A. Very, Dr. Henry W. Williams, Edwin P. Whipple, Rev. Dr. D. C. Eddy, Rev. Wm. S. Bartlet, Wm. W. Caldwell, Daniel M. Haskell, Rev. Henry W. Foote, Ben. Perley Poore, Abner C. Goodell, Rev. George L. Chaney, R. S. Spofford, Elizabeth Stuart Phelps, Joseph E. Babson, Robert S. Rantoul, Lucy Larcom, and Gail Hamilton.

The budget of Mr. Low the Chancellor of the English Exchequer, shows that notwithstanding the European war, and other opposing influences, the year 1870 has been characterized, so far as great Britain is concerned, by a good deal of elasticity. The total revenue proved to be two millions and a third greater than the estimates contemplated, while the expenditures were half a million sterling less. The army cost more than was expected, but the decrease in civil service expenses far more than made up for that increase. For the present year the Chancellor wants £16,500,000 for the maintenance of the army: £9,750,000 for that of the navy, and in addition to other important though ordinary expenses, asks an appropriation of £150,000 over that of last year for the educational features of the civil service department. The receipts of the year are estimated at £60,000,000, and as the expenses are put down at nearly £72,000,000 the government expects a deficiency of about £3,760,000.

The importations of sperm and whale oil and whalebone into New Bedford, New London, and New York the past week aggregate 1449 barrels sperm oil, 21,066 barrels whale oil, and 148,695 pounds whalebone, and from Jan 1st 1861 barrels sperm oil, 32,525 barrels whale oil, and 443,282 pounds whalebone. Last year the importations for the same period amounted to 6397 barrels sperm oil, 11,662 barrels whale oil, and 221,956 pounds whalebone. The apparently much larger importation this season over last is owing to the earlier arrival of freighting vessels.

An eccentric Minister in a large parish had seventeen couples to marry at once in a grand common service at the church. In the course of the wedding he asked one of the men to pledge himself to the wrong woman. The man naturally protested, but was told:—"Hold your tongue! I will marry you all now and here; and you can sort yourselves going home."

Gross Isle, Detroit thinks, will be the Western Saratoga.

Du Chaillu is about going to Norway, Sweden, and other northern countries for material for new juvenile books.

Large hoop earrings of tortoise shell, jet or gold are all the rage; the larger they are the more stylish they are considered.

A mortgage loan of $3,150,000 has been raised in Holland for the completion of the railroad from Winona, Minn., to Madison, Wis.

Incendiarism is increasing so rapidly in Madison, New Jersey, that a reward of $1000 is offered for the discovery of the offenders.

Low necked dresses have gone entirely out of fashion, and low linings to summer dresses have also been tabooed.

Divorces are granted on easier terms in Massachusetts than formerly. Desertion is now good cause for divorce a vinculo.

The new hotel at Middletown Springs, Vt., will be opened for the accommodation of summer boarders about the 1st of June next.

An order of foreclosure on the New York division of the Atlantic & Great Western Railroad has been entered for the account of the first and second bondholders.

The *Sun* says the robberies of Gen. Lawrence were solely due to a dissolute woman and losses at the gaming table.

Mosaic and cameo jewelry is coming in fashion again, and is set in burnished gold and enamel.

The *Tribune* says it should be glad to be called into court to prove the genuineness of Governor English's despatch to Tweed just before the late Connecticut election.

Lisbon, Connecticut, is a happy hamlet. It boasts a saw mill, but no minister, lawyer, doctor, store, grist mill, factory or rum shop.

Indications of oil have been discovered at Pontiac, Mich., and boring is to be commenced immediately.

It is said that Vermont stands first on the list of states for the completeness and correctness of its census returns.

President Grant visited his farm at Gravois, Missouri, on Monday, dined with Colonel Robert Campbell and spent the evening at Glen Kenneth, the country seat of H. Benton, Esq.

A bride last week received among her wedding presents, two grand pianos, several large oil paintings, and twelve large silver berry bowls lined with gold.

A Bureau school ma'am in Georgia thrashed one of her pupils, a colored boy of 80, for holding his book bottom up, and his grand children looked on and applauded.

A New Hampshire young lady, Mary Brockway, recently celebrated her 104th birthday in East Washington, by splitting and carrying into the house half a cord of wood.

Washington specials says that Grant declared before his Western trip that he should drop San Domingo altogether, believing it would be a firebrand in the next convention, if persisted in.

The correspondent of the Springfield *Republican* writes: The Ku Klux bill is to be enforced from the start with great vigor, and if there is a decided outbreak of rebel violence in any county, the President will crush it out instantly with all the military power at his command.

Preparations are being made for summer boarders at Manchester, as usual. The season will open June 15th. The Equinox is being put in thorough repair, and the Elm House is having another story and a French roof added.

General Meyer expects to have arrangements completed with telegraph companies in a short time, so that weather reports will be received from seventy five widely separated points at the same instant, enabling him to predict the weather for twenty four hours ahead with tolerable certainty. Reports are now received from only thirty two different points.

Boarding at some of the Washington taverns is costly. Senator Fenton has been paying for a parlor, two bedrooms and an office at the Arlington $1,000 a month. S. S. Cox and his wife, $250 a week. Simon Cameron's bill for two rooms was $450 a month. Hembold was charged $95 a day, but he makes his money out of patent medicines. The others pay their board bills and lay up fortunes out of $5 000 a year.

Washington advices say Greeley has been there consulting with Sumner and Boutwell on a plan for harmonizing the Republican factions in this State.

Rev. De Witt Talmage has discovered a class of young men who are safe without effort. 'They are the sour, sallow faced young men. Satan would not know what to do with them if he had them. He would be afraid of their disputing his kingdom with him.'

The Two Sexes.

The following true and elegant paragraph is from the pen of Mrs. Sigourney: Man might be initiated into the varieties of needlework; taught to have patience with the feebleness and waywardness of infancy, and to steal with noiseless step around the chamber of the sick; and the woman might be intrusted to contend for the palm of science; to pour forth eloquence in Senates, or wade through fields of slaughter to a throne. Yet revoltings of the soul would attend this violence to nature, this abuse of physical and intellectual energy; while the beauty of social order would be defaced and the fountain of earth's felicity broke up.

We arrive then at the conclusion; the sexes are intended for different spheres, and instructed in conformity to their respective destinations, by Him who bids the oak brave the fury of the tempest, and the Alpine flower lean its cheek on the bosom of eternal snows. But disparity does not necessarily imply inferiority. The high places of the earth with all their pomp and glory, are indeed accessible only to the march of ambition or the grasp of power; yet those who pass with faithful and unapplauded zeal through their humble round of duty are not unnoticed by the Great Taskmaster's eye—and their endowments, though accounted poverty among men, may prove durable riches in the Kingdom of Heaven.

About Home.

Two old trees were cut down yesterday, on Dr. Watson's place, which must be nearly one hundred years old.

Notwithstanding the rain of last evening, the Aquidneck Rifles were out in full force, and paraded the streets accompanied by the Redwood Band till about ten o'clock. The Redwoods show great improvement in the musical line.

This foggy weather is bad for vessels along the coast. If it lasts long we shall probably hear of many accidents.

A butcher's cart on the Parade, in attempting to turn too short a corner this morning, upset, and the contents were scattered. No serious damage was done however, as the contents were not extensive.

PERSONAL.—Sidney Brooks esq., has arrived at his summer residence on Bellevue Avenue, the first of our summer visitors for the season.

IMPROVEMENTS.—John street is to be graded and otherwise repaired at once. Residents thereon must be highly gratified at this prospect, for no street needs repairing more this one.

BREAK DOWN.—Mr. Gladding a butcher on the Point, was driving along Thames street yesterday at a somewhat rapid rate when the forward axle to his wagon broke, and his whole load was deposited in the street.

ANNUAL MEETING.—The Temple of Honor held its annual meeting last evening, for the election of officers. We are informed that the organization is in a very flourishing condition, and receiving constant accessions to its membership from the young men and others of our city.

THE ELECTION.—The election, yesterday, in the first ward for the choice of Second Councilman resulted as at the first trial, and the vacancy still exists. The vote, as declared by its official count stands for James L. Weaver, 72; for Lewis L. Simmons, 50; for John C. Stoddard, 47; scattering, 1; And so the firemen of that section will try, try again.

LETTER BOXES.—It is somewhat amusing to observe the manipulations around the new letter boxes recently put upon the lamp posts. No place is found to put the letter. When the cover is raised a "little thing inside" comes right up in the way and the letter they apparently think must be left outside, if left at all; consequently, after walking round the box a few times, and examining all the sides of it carefully they march off into the stores and deposit their letters in the old boxes, which always stand invitingly open, but from which no collections are made.

Tiverton.

There seem to be some doubts in the minds of our Tiverton friends as to the eligibility of the three ladies, elected on the school committee, for that office. A correspondent of the Fall River *Monitor* comes to the conclusion that they cannot hold the position, while a writer to the Providence *Journal* takes the other side, and quotes the constitution of Rhode Island in support of his position, which says:

"No person shall be eligible to any civil office (except the office of School Committee) unless he be a qualified elector for such office," this looks as though the women would be likely to "stick."

Not to be Beaten.

A New Hampshire man and a man from from Ohio chanced to meet at a public dinner table in New York. The man from Ohio suggested to him of the Granite State that it might be advantageous to him to remove to the West, especially if he proposed to follow the pursuit of a farmer. The Yankee could not see it. There was no State in the Union equal to New Hampshire. He of the Buckeye State could not agree to this. Ohio was inferior to New Hampshire in no respect, while in many respects she was superior. The Yankee demanded to know a superior feature. The Buckeye commenced to enumerate; but as fast as he presented his claims of superiority his antagonist unhesitatingly swept them away by bold and vigorous declarations to the contrary.

At length, when all other sources of argument had been exhausted, the Buckeye confidently observed,—

"You will at least allow that Ohio justly claims superiority over New Hampshire in point of the extent of the territory."

"No, sir!" promptly and emphatically replied the Yankee. "Your State spreads out because it is flat. Look at the mountains of New Hampshire! Goodness mercy! Just roll 'em out flat, and they'd make territory enough to cover up the whole of Ohio, and fill up a big slice of Lake Erie!"

Slaughter of Game Birds in the West.

The slaughter of the game birds in some of the Western States is immense and of course inexcusable. An item in a Chicago paper, for instance, says that 10,000 quail and prairie chicken were fed to the hogs in Chicago in a single day. In Illinois and Iowa quail, ruffled grouse and prairie chicken are destroyed by the million, regardless of law and irrespective of the time of the year.—The Chicago *Tribune* tells us that tons of birds of the choicest kinds, snared and shot out of season, are boiled down and fed to hogs. One day last week, on the corner of two streets in Chicago, stood a wagon containing 180 dozen prairie chicken;—while on the sidewalk near by were piled thirty seven boxes, containing five hundred and sixty dozen quail, corrupt, decomposing, and condemned by the health officers. All the birds were condemned in one commission house as only fit for swine to eat.—"These birds," says the *Tribune* "must soon disappear before such recklessness and vice. They abound in the southern part of Illinois, and they are trapped and sent to the Chicago market, where they sell for twelve shillings a dozen. They find a ready sale up to the middle of March, after which civilized people never eat them. And yet the indiscriminate slaughter continues. The young birds and setting hens, all alike, are snared and shot and sent to Chicago and other cities on commission, their ultimate destination to be food for swine."—There is no law it appears, to prevent this indiscriminate slaughter, and the western papers are earnestly calling for one.

Pious Gambling.

Some time ago, on the occasion of a Baptist Fair in this city, we called the attention of the religious world to the injury done to their cause by the so called raffling and other unfair practices too common at such places. Since then, we notice that a strenuous effort has been made by some of the churches to prohibit any such illegal modes of money making, and we notice also that they have lost nothing, even in a pecuniary view, by the action, besides gaining immeasurably in moral position.

A fair which is now in progress in Brooklyn brings the matter before the public again. It is for the best of purposes—a Hospital for women and foundlings—and is under the conduct of ladies both Catholic and Protestant, whose devotion and charity no one can question. They have a large and brilliant display of goods for sale, and ought to have in that way an assured success. We scruple the less, therefore, to remonstrate with them for introducing the gambling element so largely into their plans. It is natural for generous women eager in a good cause to overlook the ultimate effects of the machinery they employ. But the more noble the purpose the more requisite is it that it should not be accomplished by criminal means. Either gambling is wrong or it is not; if it is, we, for our part, can see little difference in a young man's winning $1,000 at a faro table, or one to which the name of St. Peter invites him, except, indeed, that in the latter case the sanction of religion is given to what the law prohibits as a crime. The very women who would be most appalled at the thought of their sons or brothers falling into such temptation, are the first to offer it here under the cloak of pious charity, and with all the allurements of winning smiles and bright glances.

"Did you ever," said the confessor to the penitent, "put green glasses on your horse to make him eat sawdust for oats?" "I never did, yer riverence." "Never do, then. It's the meanest kind of cheating, that is." Next time Pat, having finished his list of sins, mumbled out, "Ah! I thried the green glasses, Father." "What! Didn't I tell you that was the devil's own plan?" "Yes, sur. But it was yer riverence as brought me the news of it."

The story is old and coarse, but it has its meaning.—*New York Tribune.*

Good Advice to Dyspeptics.

If a man wishes to get rid of dyspepsia, he must give his stomach and brain less to do. It will be of no service to him to follow any particular regimen—to live on chaff bread or any such stuff—to weigh his food, etc., so long as the brain is in a constant state of excitement. Let that have proper rest, and the stomach will perform its functions. But if he pass fourteen or fifteen hours a day in his office or counting room, and take no exercise, his stomach will inevitably become paralyzed, and if he puts nothing into it but a cracker a day, it will not digest it. In many cases it is the brain that is the primary cause. Give that delicate organ some rest. Leave your business behind you when you go to your home. Do not sit down to your dinner with your brows knit, and your mind absorbed in casting up interest accounts. Never abridge the usual hours of sleep. Take more or less exercise in the open air every day. Allow yourself some innocent recreation. Eat moderately, slowly, and of just what you please—provided it be not the shovel and tongs. If any particular dish disagrees with you, however, never touch it or look at it. Do not imagine that you must live on rye bread or oatmeal porridge; a reasonable quantity of nutritious food is essential to the mind as well as the body. Above all banish all thoughts of the subject. If you have any treatises on dyspepsia, domestic medicine, etc., put them directly into the fire. If you are constantly talking and thinking about dyspepsia, you will surely have it. Endeavor to forget that you have a stomach. Keep a clear conscience; live temperately, regularly, cleanly; be industrious, too, but be temperate.

What Woman is.

It must be borne in mind that all the foibles attributed to woman are but the characteristics of mankind in general. It is said, there is nothing fixed, immutable, and steadfast in the character of woman. True it is, most true, that they are as changeable as light—as fluctuating as the shadow of a summer sea. But are not men—particularly the more youthful part—at least the more sensitive, the more poetical—as changeable, as capricious! But this very love of change and vanity is the consequence of a quick, apt, sensible, and precipitate nature; and such a nature is woman's, as it shows itself in everything around her, and in everything she does. Whose mind is struck so forcibly as hers by the striking and brilliant images traced out by painting and poetry! Whose eye so quick as hers for color! Whose ear so formed for the changes and vibrations of sound!

Her only attachment is home, and that she carries about with her. Her vitality is untouched, her sympathies are unhurt by the influences of foreign customs, or of a strange sky and air. In her youth she may have blossomed about the doorway of a cottage; in after life she may be transplanted to a house in the city, made to breathe the city, made to breathe the hot and crowded air—to bask in the artificial sunshine—in the shadow, in the smoke, and in the thick atmosphere of a town. But even there she is happy—even there she is making sweet everything she touches, and shedding light and cheerfulness on every side of her. Her countenance is as pleasant as ever. Her playful laugh is heard as of yore.

Daniel Webster.

The Boston *Traveller* has the following: A man once employed Hon. Daniel Webster to conduct a suit in court for him, and told him a few of the outlines of it, intending to give him full details afterward. At subsequent visits Mr. Webster was too busy to listen, but on the day preceeding the trial the now alarmed and anxious client got Mr. Webster to sit down with him. "Now," remarked Mr. Webster at the outset, "suppose you listen for a few moments and let me tell you how I understand the case to be." Mr. Webster went on and stated the case, and when he had concluded the astonished client said, "Why, Mr. Webster, you have told me facts in reference to my affairs that I have never dreamed of myself." Mr. Webster won the case. That was the result of intuition with the great statesman. The imperfect representation by the client had given him a clue to the case in all its bearings.

Try It.

It is amazing that the feeble should totter, with uncertain steps, over the face of the earth, in danger every day of falling victims to the morbid influences by which we are all surrounded, when a tested and proven vegetable tonic, capable of endowing them with the vigor they need, is procurable in every city, town and settlement. It might reasonably be thought that after the twelve years' experience which the world has had of Hostetter's Bitters, all would know that its effect is to prevent disease.

At certain seasons the atmosphere is surcharged with the seeds of intermittents, remittents, rheumatism, pulmonary disorders, bilious complaints and the like. Persons whose nervous systems are relaxed are the first to succumb to these distempers.—Brace up the physical energies then with this potential vegetable tonic. It is the most powerful recuperant which the botanic kingdom has ever yielded to patient research and experiment. Try it. The blindest disciples of the old medical dogmas will at least admit that a tonic and alterative, compounded of approved herbs, roots and barks can do no harm, while the testimony of thousands invites a trial of its virtues.

Vigor is the thing most needed in these cases as well as in dyspepsia and nervous affections, and Hostetter's Bitters is the safest, surest and most wholesome strengthening preparation that human skill has yet concocted.

Hundreds of physicians have abandoned all the officinal receipts and prescribed this harmless tonic as a preventive and cure for all cases of chills and fever.

MR. WM. K. REYNOLDS, Proprietor and Compounder of Barlowe's Lotion.—Dear Sir—So many worthless remedies for the ills of man are pushed upon the people of the present day, that every one must feel an interest in the success of those containing undoubted merit.

Hence my testimony, for the first time, is given in favor of your Lotion, which for more than three years has been used, and proven in all cases to be fully equal to the claims you have made for it.

Truly yours,

Consumption,

ITS CURE AND ITS PREVENTIVE,

By J. H. SCHENCK, M. D.

Many a human being has passed away, for whose death there was no other reason than the neglect of known and indisputably proved means of cure. Those near and dear to family and friends are sleeping the dreamless slumber into which, had they calmly adopted

Dr. JOSEPH H. SCHENCK'S SIMPLE TREATMENT.

and availed themselves of his wonderfully efficacious medicines, they would not have fallen.

Dr. Schenck has in his own case proven that wherever sufficient vitality remains, that vitality, by his medicines and his directions for their use, is quickened into healthful vigor.

In this statement there is nothing presumptuous. To the faith of the invalid is made no representation that is not a thousand times substantiated by living and visible works. The theory of the cure by Dr. Schenck's medicines is as simple as it is unfailing. Its philosophy requires no argument. It is self assuring, self-convincing.

The Seaweed Tonic and Mandrake Pills are the first two weapons with which the citadel of the malady is assailed. Two thirds of the cases of consumption originate in dyspepsia and a functionally disordered liver. With this condition the bronchial tubes "sympathize" with the stomach. They respond to the morbific action of the liver. Here, then comes the culminating result, and the setting in, with all its distressing symptoms, of

CONSUMPTION.

The Mandrake Pills are composed of one of Nature's noblest gifts—the Podophillum Peltatum. They possess all the blood-searching, alterative properties of calomel, but unlike calomel, they

"LEAVE NO STING BEHIND."

The work of cure is now beginning. The vitiated and mucous deposits in the bowels and in the alimentary canal are ejected. The liver, like a clock, is wound up. It arouses from its torpidity. The stomach acts responsively, and the patient begins to feel that he is getting, at last,

A SUPPLY OF GOOD BLOOD.

The Seaweed Tonic, in conjunction with the Pills, permeates and assimilates with the food. Chylification is now progressing, without its previous tortures. Digestion becomes painless, and the cure is seen to be at hand. There is no more flatulence, no exacerbation of the stomach. An appetite sets in.

Now comes the greatest Blood Purifier ever yet given by an indulgent father to suffering man. Schenck's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature cannot be cheated. It collects and ripens the impaired and diseased portions of the lungs. In the form of gatherings it prepares them for expectoration, and lo! in a very short time the malady is vanquished, the rotten throne that it occupied is renovated and made new, and the patient, in all the dignity of regained vigor, steps forth to enjoy the manhood or womanhood that was

GIVEN UP AS LOST.

The second thing is, the patients must stay in a warm room until they get well; it is almost impossible to prevent taking cold when the lungs are diseased, but it must be prevented or a cure cannot be effected. Fresh air and riding out, especially in this section of the country in the fall and winter season, are all wrong. Physicians who recommend that course lose their patients, if their lungs are badly diseased; and yet, because they are in the house they must not sit down quiet: they must walk about the room as much and as fast as the strength will bear, to get up a good circulation of blood. The patients must keep in good spirits—be determined to get well. This has a great deal to do with the appetite, and is the great point to gain.

To despair of cure after such evidence of its possibility in the worst cases, and moral certainty in all others, is sinful. Dr. Schenck's personal statement to the Faculty of his own cure was in these modest words:

"Many years ago I was in the last stages of consumption; confined to my bed, and at one time my physicians thought that I could not live a week; then like a drowning man catching at straws, I heard of, and obtained the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to me that I could feel them penetrate my whole system. They soon ripened the matter in my lungs, and I would spit up more than a pint of offensive yellow matter every morning for a long time. As soon as that began to subside, my cough, fever, pains and night sweats all began to leave me, and my appetite became so great that it was with difficulty that I could keep from eating too much. I soon gained my strength, and have grown in flesh ever since."

"I was weighed shortly after my recovery," added the Doctor, "then looking like a mere skeleton; my weight was only ninety-seven pounds; my present weight is two hundred and twenty-five (225) pounds, and for years I have enjoyed uninterrupted health."

Dr. Schenck has discontinued his professional visits to New York and Boston. He or his son, Dr. J. H. Schenck, Jr., still continue to see patients at their office, No. 15 North Sixth street, Philadelphia, every Saturday from 9 A. M. to 3 P. M. Those who wish a thorough examination with the Respirometer will be charged $5. The Respirometer declares the exact condition of the lungs, and patients can readily learn whether they are curable or not.

The directions for taking the medicines are adapted to the intelligence even of a child. Follow these directions, and kind Nature will do the rest, excepting that in some cases the Mandrake Pills are to be taken in increased doses; the three medicines need no other accompaniments than the ample instructions that accompany them: First, create appetite. Of returning health hunger is the most welcome symptom. When it comes, as it will come, let the despairing at once be of good cheer. Good blood at once follows, the cough loosens, the night sweat is abated. In a short time both of these morbid symptoms are gone forever.

Dr. Schenck's medicines are constantly kept in tens of thousands of families. As a laxative or purgative, the Mandrake Pills are a standard preparation; while the Pulmonic Syrup, as a cure of coughs and colds, may be regarded as a prophylacteric against consumption in any of its forms.

Price of the Pulmonic Syrup and Seaweed Tonic, $1.50 a bottle, or $7.50 a half dozen. Mandrake Pills 25 cents a box. For sale by all druggists and dealers.

FRANCE.

PARIS, April 27.

The southern forts are badly damaged.—The Versaillist projectiles fall inside the ramparts of the city. A great many people are killed and wounded.

The Mot d'Ordre says that the communists will blow the forts if necessary. The Commune claims to have silenced the Versailles battery at Meudon, captured a barricade at Neuilly and dismounted five guns at Courbevoie.

The Communal Council now holds its sitting with closed doors.

VERSAILLES, April 27.

Six thousand troops from the Versailles army have executed some important movements north of Paris. The situation of the insurgents south of Paris is said to be good. Thiers announces in a circular that active operations commenced yesterday.

The Insurgents's battery on Trocadero has been removed. There was some fighting at Asnieres yesterday. The Versailles forces made an attempt to cross the bridge over the Seine at Clichy, but was unsuccessful.

The Prussians have ordered the arrest of the cure of the Church of St. Dennis. The cause unknown.

Seven cannon in Fort Issy have been dismounted, and Fort Montrouge is an utter wreck.

The Prussian General Barnackow and staff have arrived at Dieppe, where General Von Goeben, commander of the German force in the north of France, is expected.

A special despatch to the Tribune of this date states that an Algerian member of the Assembly said that the Algerian insurrection was most alarming. Despatches were hourly received demanding aid. The insurrection was an imitation of that initiated in Paris, with the object of pillage.

Minister Picard replied that measures had been taken to suppress the outbreak, and complained that the accounts of the insurrection were exagerated.

PARLIAMENT.

The Work of the Commission.

LONDON, April 27.

In the House of Commons this evening Viscount Enfield, in reply to a question concerning the action of the Joint High Commission, stated that no convention had yet been signed. At the same time he declines to specify what points the commission had already adjusted.

Mr. Gladstone announced that the proposition to impose a tax upon matches, and to increase the duties on legacies and successions, would be withdrawn to reconcile the opposition to the remaining recommendations of the budget, and an addition of two pence on a pound to the income tax to be submitted.

SWITZERLAND.

Heavy Embezzlement of Government Funds.

LONDON, April 26.

A deficit of half a million francs has been discovered in the Swiss treasury, and a prominent official has confessed to the embezzlement.

The Tribune special from Versailles on Wednesday evening, says that the Versailles troops attempted to cross the bridge at Asnieres that morning, but the fire of the enemy was too strong and they retreated. Yesterday some shells fell inside of Fort Valerien which replied with great fury.

President Thiers, in a circular to the prefects, says that active operations began yesterday. Three great lines of batteries opened on Vanvres and Issy on the right line. Some of the men were wounded.—The fire was maintained in the centre by seventeen guns of great calibre, but no damage was done. At noon there was a marked superiority of our guns over that of Issy, which fired at rare intervals.

The Tribune correspondent at Paris Thursday morning, says there was heavy fighting all night along the whole line.—Vanvres, Issy and Montrouge were furiously bombarded. The Vanvres garrison determined to blow up the fort rather than surrender. The ninth battallion suffered greatly at Issy. Several men were killed in the fort. A shell d the muzzle of one gun, which burst wounding three gunners.

NEBRASKA.

OMAHA, April 27.

More settlers are coming to Nebraska this season than ever before. It is probable that the population of this State this year will be increased 40,000.

NEW YORK.

April, 27.

Another corrupt Tammany ring job for the widdening of Broome street has been unearthed.

The dry goods clerks are discussing the propriety of abandoning the Early Closing Association.

It is computed that there are 25,000 business drummers who go out from New York every year at avarage salaries of $1500.

Steps were taken last night for forming a union of all the Germans in New York and its vicinity for mutual advantage.

A private letter from Paris received here says "the insurgents are very rough and make no bones about insulting and maltreating any one they come across. They walk into any house and seize whatever they please. The respectable party of Communists is completely cowed. I am confident that were a full vote taken to day as to who should rule, Napoleon would receive a majority. Cluseret and Rochefort have become mortal enemies."

A Scranton special says it is clearly to be seen that the backbone of coal suspension is broken and with a little more firmness on the part of the operators, the coal trade will soon recover its wonted activity.

MORE MINING TROUBLES.

SCRANTON, Pa., April 27.

The miners in the employ of Grant & Co. at Pine Brook, stopped work yesterday because it was thought to be the intention of the company to ship the coal to Binghamton. This mine has been running all winter. The miners threatened to stop the process of loading, but committed no overt act, the proprietors standing by fully prepared and determined the coal should be cut, though the whole force of the miners were brought to bear against them. The cars were loaded and will undoubtedly be shipped. The company do not intend to mine any more coal until the resumption becomes general.

FATAL RAILROAD ACCIDENT IN NEW JERSEY.

ELIZABETH, April 27.

The train from Plainfield N. J. for New York struck one of Barnum's circus wagons this morning near Crawford, N. J., killing three men outright and dangerously injuring two others, while the sixth was slightly injured. All belonged to the circus. The wagon, loaded with provisions, dishes, etc., was totally demolished. Two mules were carried over two hundred feet and killed.—The driver's body was found seventy five yards from the crossing.

WOULD invite attention to the "Combination Suction Plates," said by competent Dentists to be the greatest improvement in Mechanical Dentistry in thirty years. Insuring perfect security against rocking, moving or falling. Preventing particles of food from working under, and the amount of suction increased at least ten times over any plate in use. Equally applicable to the most difficult mouths or to partial sets.

He is also using a new base for Artificial Teeth, which promises to be incomparably superior to rubber. Combining strength, beauty and cleanliness with perfect freedom from taste or smell. nov21

NEWPORT DAILY NEWS

Seeing the Point.

A boy returned from school one day with a report that his scholarship had fallen below the usual average.... "Well," said the father, "you have fallen below this time, have you?"

"Yes, sir."

"How did it happen?"

"Don't know, sir."

The father knew if the son did not. He had observed a number of cheap novels scattered about the house, but had not thought it worth while to say anything until a fitting opportunity should offer itself. A basket of apples stood upon the floor. And he said:

"Empty out those apples, and take the basket and bring it to me half full of chips."

Suspecting nothing, the son obeyed.

"And now," he continued, "put those apples back into the basket."

When half the apples were replaced, the son said:

"Father, they roll off. I can't put in any more."

"Put them in I tell you."

"But, father, I can't put them in."

"Put them in? No, of course you can't put them in. Do you expect to fill a basket half full of chips and then fill it with apples? You said you did not know why you fell behind at school; and I will tell you. Your mind is like that basket. It will not hold more than so much. And here you've been for the past month filling it up with chip dirt—cheap novels!"

The boy turned off his heel, whistled, and said, "Whew! I see the point."

Not a cheap novel has been seen in the house from that day to this.

Other and older persons might well see the same point. A mind filled with fiction hates and rejects truth. A person reading history, art, science or travels, may grow wiser every day; but a man may read fiction a hundred years, and know no more when he finished than when he began.

The Youthful Fritz.

Berlin is highly pleased with the story of the manner in which the eldest boy of the crown princess demeaned himself when he met his grandfather the other day, at Wildpark. As soon as the Emperor came within proper distance this youthful Fritz saluted him with intense gravity, and stood to attention as rigidly as if he had petrified. The Emperor called him familiarly by name and asked an affectionate question. His reply was another elaborate military salute, and a resumption on the boy's part of "attention." With a burst of laughter the old gentleman took his grandson in his arms, when at length the latter thought circumstances entitled him to merge discipline in affectionate demonstrations. He is very like what, in appearance, the Prince of Wales was at his age—honorable, studious and eager to excel. The second son, Henry, is a pretty boy, but rather pale and delicate.

7-30 GOLD LOAN

OF THE

Northern Pacific Railroad

RAPID PROGRESS OF THE WORK.

The building of the Northern Pacific Railroad, (begun July 1870,) is being pushed forward with great energy from both extremities of the line. Several thousand men are employed in Minnesota and on the Pacific coast. The grade is nearly completed 235 miles westward from Lake Superior; trains are running over 130 miles of finished road, and track-laying is rapidly progressing toward the eastern border of Dakota. Including its purchase of the St. Paul and Pacific Road, the Northern Pacific Company now has 413 miles of completed road, and by September next this will be increased to at least 555.

A GOOD INVESTMENT. Jay Cooke & Co. are now selling, and unhesitatingly recommend, as a Profitable and perfectly Safe Investment, the First Mortgage Land Grant Gold Bonds of the Northern Pacific Railroad Company. They have 30 years to run, bear seven and three-tenths per cent. gold interest, (more than 8 per cent. currency) and are secured by a first and only mortgage on the ENTIRE ROAD AND ITS EQUIPMENTS, and also, as fast as the Road is completed, on

23,000 ACRES OF LAND to every mile of track, or 500 acres for each $1,000 Bond. They are exempt from U. S. Tax; Principal and Interest are payable in Gold; Denominations: Coupons, $100 to $1,000; Registered, $100 to $10,000.

LANDS FOR BONDS. Northern Pacific 7-30's are at all times receivable at TEN PER CENT. ABOVE PAR, in exchange for the Company's Lands, at their lowest cash price. This renders them practically INTEREST BEARING LAND WARRANTS.

SINKING FUND. The proceeds of all sales of Lands are required to be devoted to the repurchase and cancellation of the first Mortgage Bonds of the Company. The Land Grant of the Road exceeds Fifty Million Acres. This immense Sinking Fund will undoubtedly cancel the principal of the Company's debt before it falls due. With their ample security and high rate of interest, there is no investment, accessible to the people, which is more PROFITABLE OR SAFE.

EXCHANGING U. S. FIVE-TWENTIES. The success of the New Government 5 per cent. Loan will compel the early surrender of United States 6 per cents. Many holders of Five-Twenties are now exchanging them for Northern Pacific Seven-Thirties, thus realizing a handsome profit, and greatly increasing their yearly income.

OTHER SECURITIES. All marketable Stocks and Bonds will be received at their highest current price in exchange for Northern Pacific Seven-Thirties. EXPRESS CHARGES on Money or Bonds received in exchange for Seven-Thirties will be paid by the Financial Agents. Full information, maps, pamphlets, etc., can be obtained on application at any agency, or from the undersigned.

$500 WILL BE FORFEITED BY DR. L. DIX if failing to cure in less time than any other physician, more effectually and permanently, with less restraint from occupation or fear of exposure to all weather, with safe and pleasant medicines.

SELF ABUSE AND SOLITARY HABITS,
Their effects and consequences;
SPECIAL AILMENTS AND SITUATIONS
Incident to Married and Single Ladies;
SECRET AND DELICATE DISORDERS;

Mercurial Affections, Eruptions and all Diseases of the Skin; Ulcers of the Nose, Throat and Body; Pimples on the Face; Swellings of the Joints; Nervousness; Constitutional and other Weaknesses in Youth, and the more advanced, at all ages, of

BOTH SEXES, SINGLE OR MARRIED.

DR. L. DIX'S
PRIVATE MEDICAL OFFICE,
No. 21 Endicott Street, Boston, Mass.,

is so arranged that patients never see or hear each other. Recollect the only entrance to his Office is No. 21, having no connection with his residence, consequently no family interruption, so that on no account can any person hesitate applying at his office.

DR. DIX

boldly asserts (and it cannot be contradicted, except by Quacks, who will do or say anything, even perjure themselves, to impose upon patients) that he

is the only regular graduate physician advertising in Boston.

TWENTY YEARS

engaged in treatment of Special Diseases, a fact so well known to many Citizens, Publishers, Merchants, Hotel Proprietors, &c., that he is much recommended, and particularly to

Strangers and Travelers.

To avoid and escape imposition of Foreign and Native Quacks, more numerous in Boston than other large cities.

DR. L. DIX

proudly refers to Professors and respectable Physicians—many of whom consult him in critical cases, because of his acknowledged skill and reputation, attained through so long experience, practice and observation.

AFFLICTED AND UNFORTUNATE!

be not robbed and add to your sufferings in being deceived by the lying boasts, misrepresentations, false promises and pretensions of

FOREIGN AND NATIVE QUACKS,

who know little of the nature and character of Special Diseases, and LESS as to their cure. Some exhibit forged Diplomas of Institutions or Colleges which never existed in any part of the world; others exhibit Diplomas of the Dead, how obtained, unknown; not only assuming and advertising in names of those inserted in the diplomas, but to further their imposition assume names of other most celebrated Physicians long since dead. Neither be deceived by

QUACK NOSTRUM MAKERS,

through false certificates and references, and recommendations of their medicines BY THE DEAD, who cannot expose or contradict them; or who, besides, to further their imposition, copy from Medical books much that is written of the qualities and effects of different herbs and plants, and ascribe all the same to their Pills, Extracts, Specifics, &c., most of which, if not all, contain Mercury, because of the ancient belief of its "curing everything," but now known to "kill more than it cures," and those not killed, constitutionally injured for life.

IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS.

Through the ignorance of the Quack Doctor, knowing no other remedy, he relies upon MERCURY, and gives it to all his patients in Pills, Drops, &c., so the Nostrum Maker, equally ignorant, adds to his so-called Extracts, Specific, Antidote, &c., both relying upon its effects in curing a few in a hundred, it is trumpeted in various ways throughout the land; but, ALAS! nothing is said of the balance; some of whom die, others grow worse, and are left to linger and suffer for months or years unrelieved or cured, if possible, by competent physicians.

BUT ALL QUACKS ARE NOT IGNORANT.

Notwithstanding the foregoing facts are known to some Quack Doctors and Nostrum Makers, yet, regardless of the life and health of others, there are those among them who will perjure themselves, contradicting giving mercury to their patients or that it is contained in their Nostrums, so that the "usual fee" may be obtained for professedly curing, or "the dollar" or "fraction of it" may be obtained for the Nostrum. It is thus that many are deceived also, and uselessly spend large amounts for experiments with quackery.

DR. L. DIX'S

charges are very moderate. Communications sacredly confidential, and all may rely on him with the strictest secrecy and confidence, whatever may be the disease, condition or situation of any one, married or single.

Medicines sent by Mail and Express to all parts of the United States.

All letters requiring advice must contain one dollar to insure an answer.

TO THE LADIES.—The celebrated DR. L. DIX particularly invites all ladies who need a Medical or Surgical adviser, to call at his Rooms, No. 21 Endicott Street, Boston, Mass., which they will find arranged for their special accommodation.

Dr. DIX having devoted over twenty years to this particular branch of the treatment of all diseases peculiar to females, it is now conceded by all (both in this country and in Europe) that he excels all other known practitioners in the safe, speedy and effectual treatment of all female complaints.

His medicines are prepared with the express purpose of removing all diseases, such as debility, weakness, unnatural suppressions, enlargements of the womb, also all discharges which flow from a morbid state of the blood. The Doctor is now fully prepared to treat in his peculiar style, both medically and surgically, all diseases of the female sex, and they are respectfully invited to call at

AMERICAN AND FOREIGN PATENTS.

R. H. EDDY

SOLICITOR OF PATENTS,

For Inventions, Trade Marks, or Designs,

No. 76 State St., opp. Kilby St. Boston.

AFTER an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms, with dispatch. Researches made to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse.

CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"Mr. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part, leads me to recommend all inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.

JOHN TAGGART."

JURUBEBA.

WHAT IS IT?

It is a sure and perfect remedy for all diseases of the LIVER AND SPLEEN, ENLARGEMENT OR OBSTRUCTION OF INTESTINES, URINARY, UTERINE, OR ABDOMINAL ORGANS, POVERTY OR A WANT OF BLOOD, INTERMITTENT OR REMITTENT FEVERS, INFLAMMATION OF THE LIVER, DROPSY, SLUGGISH CIRCULATION OF THE BLOOD, ABSCESSES, TUMORS, JAUNDICE, SCROFULA, DYSPEPSIA, AGUE AND FEVER OR THEIR CONCOMITANTS.

DR. WELLS having become aware of the extraordinary medicinal properties of the South American Plant, called

JURUBEBA,

sent a special commission to that country to procure it in its native purity, and having found its wonderful curative properties to even exceed the anticipations formed by its great reputation, has concluded to offer it to the public, and is happy to state that he has perfected arrangements for a regular monthly supply of this wonderful Plant. He has spent much time experimenting and investigating as to the most efficient preparation from it, for popular use, and has for some time used in his own practice with most happy results the effectual medicine now presented to the public as

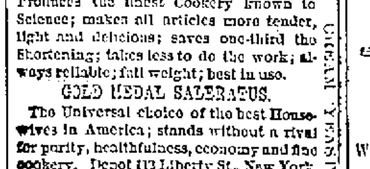

Dr. WELLS' EXTRACT of JURUBEBA,

and he confidently recommends it to every family as a household remedy which should be freely taken as a Blood Purifier in all derangements of the system and to animate and fortify all weak and lymphatic temperaments.

WARFIELD'S Cold Water Soap

What the People Say of it:

The Workingman (a neat Monthly published in Philadelphia, 802 Chestnut street, and "devoted to the best interests of all who *labor* with hands or brain") has a column in its November issue headed, INTERESTING TO EVERY HOUSEKEEPER, in which it says: "Any woman can try this soap for herself, in her own room. The result will be so like magic that she will be in surprise and delight."

"We have seen a lady take a badly-soiled tidy or antimacassar, put it in suds made in her room with this Cold-Water Soap, and in five minutes cleanse it as white as a curd. We have seen her take hair-ribbons, cap-laces, collars, fine worsted work, cambric handkerchiefs, silk and cotton gloves, etc., etc., and wash them in three or four minutes as clean as when they were new.

"For poor women who have their own washing and housework to do, this Cold-Water Soap will prove the kindest of friends."

The Providence *General Advertiser* (Oct. 29) says of it: "Should a convention of ladies be held to discuss the merits of the great variety of soaps now before the public, we believe it would be the unanimous voice of the body that 'Warfield's Cold-water Self-washing Soap' is entitled to rank A No. 1."

A lady in Providence, writing to Mrs. D. F. Barrett of Philadelphia, after using it three months, says: "This Cold-Water Soap is really one of the greatest inventions of the age. A lady in this city washed a silk Roman scarf with it without injuring the fabric at all; and it heightened the colors.

Thousands of testimonials similar to the foregoing might be obtained, but nothing will be half so convincing as *trying the Soap yourself.*
